

WiggleRoom™ Pod

private spaces for public places

Furnishing Knowledge®

Free to Focus

WiggleRoom brings balance to environments by creating an individual, distraction-free option within the togetherness of open-plan spaces. Featuring excellent acoustic properties, WiggleRoom supports privacy with sound-absorbing panels and a magnetically sealed door.

So, go ahead, take that phone call, have a one-on-one video conference or focus, think, dream, create. Because sometimes you just need a little space.

Supporting Your Virus Mitigation Strategy

As businesses and learning institutions re-evaluate safety protocols to deter the spread of infectious viruses, WiggleRoom offers a number of key features and benefits:

- Cleanable, hard surfaces that can readily accept most standard cleaning agents.
- Innate “social distancing” via enclosed walls for a single person, providing a sense of protection and well-being.
- Motion-activated “ceiling fan” constantly refreshes internal pod air, maintaining a comfortable environment.
- Creation of natural corridors and preferred “traffic flow” due to WiggleRoom’s physical size and scale.
- Occupancy light indicates whether pod is in-use, reducing risk of unintended interactions.

Free to Express

Whether you want a pod that makes a statement or seamlessly blends into any space, WiggleRoom gives you possibilities to make your vision a reality. Specify external panels in various combinations of steel, laminate and glass. Choose the door swing direction (left or right orientation) that meets your needs. Match or contrast frame and door colors for added interest. Adding magnetic inserts to steel panels enhances acoustics and aesthetics. Inserts are available in polyester felt (full length or 1/3 height) or fabric (1/3 height).

Free to Choose

It's all about how it works for you. Inside, WiggleRoom offers more than just a distraction-free zone. Select from a range of options for panel materials, surfaces, seating and accessories that enhance comfort and productivity in a compact workspace.

Workspace Convenience

Select surface size, height and options to support your needs.

Worksurface is 14" deep. Accessory ledge is 5" deep. Both can be mounted at either 29" or 42" height and can be specified with a power module and/or dimmer switch for individualized control of light levels.

Worksurface

Power Module/Dimmer Switch

Add a markerboard for quick notes or brainstorming. Polyester felt and fabric inserts are also available for a tackable option.

Specify a coat hook for hanging jackets and bags.

Floor-mounted upholstered stools in 18" or 30" seat heights offer permanent seats with a compact footprint.

WiggleRoom Features

WiggleRoom is a high performance, high design pod that is made in the USA, has an average 5-week leadtime and is backed by KI's 10-year warranty. Visualize your spec and view pricing with our interactive See It Spec It tool at ki.com/seeitspecit.

- A Occupancy Indicator Light**
Optional motion-activated LED light indicates whether pod is in-use or available.
- B Ventilation**
Motion-activated "ceiling" fan constantly replenishes internal pod air, maintaining a comfortable environment.
- C Lighting**
Motion-activated LED light has an optional dimmer for individualized control of light levels.
- D Power**
Optional Qi-enabled power module supports a USB-A port as well as Qi wireless charging and offers two 120-volt AC outlets. Specify power supply as 3-prong plug or hardwire.
- E Self-Closing Magnetic Door**
Minimizes noise distractions. Door is clear glass.
- F Carpet**
Choose from high-performance grey carpet or customer-ordered carpet (both are field-installed).
- G Adjustable Floor Glides**
Glides adapt to uneven floors and ease repositioning.

Specifications

Single-User Pod – Left- or Right-Opening Orientation
Exterior: W44 x D44 x H89
Interior: W41 x D41 x H80 (door opening height)
Door in open position extends 36.5" from front of pod

Fire Safety
Designed to accommodate sprinklers where required by local regulations.

Seismic Safety
Replace floor glides with brackets and anchor to floor.

Power Requirements
7.5 foot power cord with a 3-prong plug, also available with hardwired whip.
12-volt power supply for power module, ventilation and lighting.
